SUMEET YADAV

9.8+ yrs | Senior Application Developer | Hybrid Mobile (Cordova, Flutter, React Native) & Backend (Node.js, MongoDB) | Data Science Enthusiast
Mumbai, Maharashtra, India

Summary

★ Senior Application Developer with 9.5+ years of experience in crafting impactful Mobile and Backend applications.

★ Currently driving development efforts for the SBI YONO app at IBM.
Expertise spans hybrid mobile app development using Cordova (Android & iOS) and MERN stack technologies.

★ My technical arsenal includes Cordova, Flutter (Dart), Firebase Auth, CleverTap, Speech Recognition, NodeJS, Express, MongoDB, MySQL, and React Native.

★ I have successfully designed and implemented advanced features such as EVA (Electronic Virtual Assistant) utilizing Speech Recognition & TTS, and a Social Distancing module using BLE in both Cordova and Flutter.

★ Proficient in Git, with a strong presence on GitHub and Stack Overflow.

★ I have also done certification in IBM professional Data Science for beginners.

Experience

IBM
Senior Application Developer
September 2022 - Present (2 years 11 months)
Navi Mumbai, Maharashtra, India

Spearheaded the client-side development and successful launch of 7-9 customer journeys for the Loans team on the SBI YONO platform, utilizing Cordova, Angular, and Ionic. My efforts directly impacted customer experience and contributed to significant revenue generation through key journeys such as RTXC, PAPL, and Home Loan. I proactively provided expertise to improve the client's product, user interface, and overall functionality. Known for consistently meeting deadlines and optimizing code, my work on the SBI YONO app development has been highly commended by both manager and client.

Reliance Industries Limited
Software Developer
October 2019 - September 2022 (3 years)
Mumbai Area, India

Developed microservices-based APIs for various modules, meeting business requirements and ensuring scalability and reliability.
Led a team of NodeJS developers in the development of a module, resulting in timely delivery and high quality.
Developed mobile applications using Flutter, Cordova, Angular 6+ and ionic a cross-platform framework.
